- M-5 Sterling Castles Near Aashima mall
Hoshangabad road Bgopal - 462026

EDUCATION

- 2023 - Present
- Master of Computer Application - MCA
- 7.6 SGPA
- Lakshmi Narain College of Technology (LNCT)

INTERNSHIP

- Python Development -Associate**
The Entrepreneurship Network
1/11/2021 - 31/1/2022
As a Python development associate i used to work with Python and a Django(basic).

SKILLS

- Python(Programming Language)
- Data Structures
- Data Base Management System (DBMS)
- Structured Query Language (SQL)
- HTML & CSS
- C (Programming Language)

LANGUAGE

- English
- Hindi

Mayur Gurjar

Frontend Web Developer

Ability to quickly learn new things. Passionate about Data Structures .Optimized and efficient coding skills. Excellent Team Worker. Ability to migrate in any new environment, circumstances with a drive for results through self motivation

PROJECTS

● Python Based Projects

UNICORN - AI Desktop Assistant

Designed and implemented a dynamic virtual assistant project using Python, PyQt5, and OpenAI, seamlessly integrating various modules to enhance user interaction and efficiency. Leveraged AI-driven natural language processing to create an intelligent and user-friendly virtual assistant for a wide range of tasks.

 [Unicorn Project URL](#)

Snakes Mania

Developed an engaging Python game using the tkinter library, showcasing strong programming and problem-solving skills. Designed and implemented interactive gameplay, graphics, and user interfaces to create an immersive gaming experience.

 [Snakes Mania Project URL](#)

● HTML and CSS Based Projects

PortFolio

Crafted a visually striking and responsive portfolio website using HTML and CSS, demonstrating a keen eye for design and a commitment to showcasing professional accomplishments. Meticulously designed the user interface to highlight my skills, projects, and achievements, creating a compelling online presence

 [PortFolio Project URL](#)

Myntra Clone

Successfully engineered an HTML and CSS-based Myntra clone project, showcasing advanced web development skills and attention to detail. Seamlessly replicated the platform's user-friendly interface, demonstrating proficiency in front-end web development and design
